9 AM - 1:30 PM

SPONSORSHIP PACKET
The Fulton-DeKalb Hospital Authority presents its 8th Annual Health Summit

MIND MATTERS TOO

Wednesday, October 2, 2019
9:00 AM – 1:30 PM
Hyatt Regency Atlanta

The Fulton DeKalb Hospital Authority (FDHA), proud owner of Grady Health System (GHS) is sponsoring its 8th Annual Health Summit on Wednesday, October 2, 2019, from 9:00 AM to 1:30 PM at the Hyatt Regency Atlanta Hotel, 265 Peachtree Street NE, Atlanta, GA 30303. The summit’s theme is “Mind Matters Too.” The purpose of the 8th Annual Health Summit is to educate Fulton and DeKalb Communities about the importance of addressing mental health and wellness issues, reduce the stigma that surrounds mental health issues in our communities, and provide the Fulton and DeKalb Communities with information, services and screenings that reduce stress and promote mental and general wellness.

The FDHA 8th Annual Health Summit will bring community leaders, elected officials, non-profit agencies, and healthcare providers together to share solutions for mental health challenges. According to the CDC, it is estimated that 50% of all Americans will be diagnosed with a mental illness or disorder at some point in their lifetime. Mental illnesses are conditions that affect a person’s thinking, feeling, mood, or behavior, such as depression, anxiety, bipolar disorder, or schizophrenia. Such conditions may be occasional or long-lasting (chronic) and affect someone’s ability to relate to others and function each day.

Mental Illness in Georgia

Over 2.3 Million individuals live with mental illness.
Yet, Georgia ranks 47 out of 50 states for access to mental health care resources and insurance.

An individual with serious mental illness has a chance of ending up in prison instead of a hospital.

1 in 5

In fact, Georgia currently only has 18.7% of the beds necessary to meet the needs of individuals with serious mental illness.

Suicide
Every seven hours, one person dies by suicide in Georgia.
Suicide is the leading cause of death for ages 15-34.
Nearly twice as many individuals die from suicide in Georgia annually compared to homicide.

SPONSORSHIP OPTIONS & FORM

We know that mental and physical health are equally important components of our community's overall health. Mental illness, especially depression, increases the risk for many types of physical health problems, particularly long-lasting conditions like stroke, type 2 diabetes, and heart disease. Similarly, the presence of chronic conditions can increase the risk of mental illness.

The Fulton-DeKalb Hospital Authority would like your organization to partner with us as we address this issue and help to “remove the stigma” around mental health illness for our communities. There are several opportunities available to join us and engage with this community of influencers. See information below for sponsorship details.
